

Dear Friends,

Below you'll find a link to Operation Sight's Annual Report for Fiscal Year 2022-23. It's an understatement to say that the last year was a year of growth and positive transformation for our organization. We updated policies and procedures, welcomed four new board members, and continued to explore ways to better serve the entire state of South Carolina.

This growth along with the extraordinary number of individuals we have served over the last 12 years, would not be possible without dedicated volunteers and supporters.

Thank you for continuing to support Operation Sight and ensure South Carolinians facing socio-economic challenges receive important, sight-saving surgeries!
